

DRAWING IN THE CITY AT NIGHT

Tuesday nights 7-9pm

The class meets each week at different sites of interest around central Sydney. We work in cafes, bars, or *en plein air*, with tutorials and practical exercises.

This course follows the tradition of drawing in the city practised by Pablo Picasso, Henri de Toulouse-Lautrec, Marc Chagall, Brett Whiteley and Jean-Michel Basquiat.

In a stimulating environment students are encouraged to experiment and find their own personal voice. With supportive guidance we explore the techniques and expressive qualities of drawing.

Each week we focus on one aspect, such as gesture, dynamic rhythms, ways of perceiving, alternative materials, and collaboration. Learning from each other is central to the course.

Every person with a real interest in drawing welcome.
